individually swiss made.

# Guarantee

## Guarantee for bathtubs, shower trays, shower areas and washbasins

Our bathtubs, shower trays, shower areas and washbasins come with a manufacturer's 30-year guarantee. The guarantee covers all manufacturing defects. All other defects, in particular defects caused by inappropriate handling or external influences, are not covered by the guarantee.

The guarantee is only valid if the product is installed by a trained plumber or sanitary engineer and in accordance with the installation recommendations, instructions and applicable regulations and standards.

For products treated with the stain-repellent CLEANEEFFECT surface finish, the guarantee also covers the CLEANEEFFECT surface finish.

For products treated with ANTIGLISS PRO slip protection, the guarantee also covers the ANTIGLISS PRO surface treatment.

## Guarantee for bathtubs with whirl system

Our whirl systems come with a manufacturer's 2-year guarantee. The bathtub itself comes with a 30-year guarantee. For all technical built-in components of the whirl system, including options, the 2-year guarantee is valid from the moment commissioning of the whirl system is confirmed. If a service agreement is signed within 3 months of commissioning the whirl system, the guarantee will extend to 4 years, provided that the service agreement is upheld during this period. The guarantee covers all manufacturing defects. All other defects, in particular defects caused by inappropriate handling or external influences, are not covered by the guarantee.

The guarantee is only valid if the bathtub with whirl system is installed by a trained engineer and in accordance with the installation instructions and applicable regulations and standards, and once commissioning has been confirmed with a registration card.

The guarantee specifically does not cover the following damages and costs:

- Damages caused by contamination of the water used (e.g. from unsuitable bath additives or cosmetics, dirt particles, calcification or chemical/electrochemical effects).
- Costs arising from a defective or improperly installed inspection opening.

## **Guarantee for accessories**

All Schmidlin accessories come with a 2-year guarantee. For commercially available products, the manufacturer's guarantee applies.
